SUMMARY

Enthusiastic and detail-oriented Computer Science graduate with a strong foundation in Generative AI, Python, Machine Learning, and Large Language Models (LLMs). Hands-on experience building AI-powered applications using LangChain, OpenAI APIs, Retrieval-Augmented Generation (RAG), Vector Databases, and Prompt Engineering. Passionate about solving real-world business problems through AI and eager to contribute as a Gen AI Developer.

INTERNSHIP

Entrust software &IT services, *Generative AI Intern* 05/2025 – 09/2025 | Chennai

- Completed a 5-month internship in Generative AI at Entrust Software & IT Services. Gained practical exposure to Generative AI concepts, Large Language Models (LLMs), prompt engineering, and Python-based AI application development. Worked on developing AI-powered applications and explored real-world applications of Generative AI technologies.

EDUCATION

srikrishna arts and science college 07/2025 – Present | Coimbatore

Master of Science in Information Technology (M.Sc. IT)

CGPA: 6.7/10

TECHNICAL SKILLS

Programming (Python • SQL) | **Generative AI** (Prompt Engineering • Large Language Models (LLMs) • OpenAI API • Gemini API • RAG (Retrieval-Augmented Generation) • AI Agents • Function Calling • Embeddings) | **Frameworks** (LangChain • LangGraph • LlamaIndex • Streamlit • FastAPI) | **Vector Databases** (FAISS • ChromaDB • Pinecone) | **Databases** (MySQL • MongoDB) | **Cloud & Tools** (Git • GitHub • VS Code • Docker (Basics) • Postman)

COURSES

Generative AI, *AIMORE Technologies* 06/2026 – 10/2026 | Chennai

Python, LangChain, LangGraph, Hugging Face, RAG, Pinecone, FastAPI

AI Tools & Claude Workshop, *be10x* 10/2026 | Online

Completed a practical workshop on AI applications, gaining hands-on exposure to AI-powered presentation creation, data analysis, code generation, and debugging.

PROJECTS

ResearchIQ – Academic Research Intelligence Platform,

Technologies: Python, Streamlit, RAG, ChromaDB, MongoDB Atlas, Sentence Transformers, Ollama, Qwen 2.5.

- Developed an AI-powered platform to analyze academic research papers and identify research gaps.

- Implemented PDF uploading, text extraction, and document processing.
- Integrated Retrieval-Augmented Generation (RAG) for context-aware question answering.
- Used ChromaDB for semantic search and vector-based document retrieval.
- Integrated MongoDB Atlas for storing research and analysis information.
- Built an interactive Streamlit dashboard with analytics and report generation.

GitHub: https://github.com/HarikrishnanS1713/researchiq-academic-platform

AI Code Companion, *Generative AI-Based Programming Assistant*
Developed an AI-powered programming assistant using Python, Streamlit, Ollama, and Qwen 2.5 (3B) to generate, explain, and debug Python code. Implemented file upload functionality for code analysis and integrated SQLite for persistent conversation history. Added chat history management, downloadable AI responses, and error handling to enhance user experience.
Technologies: Python, Generative AI, LLM, Qwen 2.5, Ollama, Streamlit, SQLite.
GitHub:https://github.com/HarikrishnanS1713/LLM-Projec t

PrepAI – AI-Powered Interview Preparation Platform, *Web-Based Mock Interview and Practice Platform*
Developed a web-based interview preparation platform designed to help students and fresh graduates improve their interview skills. Built an interactive platform to support interview practice and enhance candidate confidence through a structured preparation experience.

INTERESTS

Artificial Intelligence | Large Language Models | Machine Learning | Open Source Development | Cloud Computing

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Communication
- Team Collaboration
- Adaptability
- Time Management

LANGUAGES

English | Tamil
